To Whom It May Concern,

This is to certify that Mr. Yoosef Ghaderi, who has completed her bachelor's degree in computer engineering from Isfahan University of Technology (IUT), has collaborated with me as a Teaching Assistant (TA) for the Compiler Design course. During this period, his abilities and commitment have been clearly evident. He is a responsible, hardworking, and committed individual with deep knowledge and outstanding skills in the areas of Language Theory, Automata, and Compiler Design. He has played an effective role in enhancing the quality of education for this course. Considering Mr. Ghaderi's academic and ethical capabilities, I strongly recommend him for admission to the Master's program in Computer Engineering at the University of Tehran. I hope that he continues his studies successfully at the graduate level and achieves significant accomplishments.

Sincerely,

Fatemeh Deldar, Ph.D, Assistant Professor
